

Recovery Connection Group

We are excited to offer activities and support for our recovery community, hosted by the Pine Rest Retreat Center. The goal of these meetings is to build stronger connections between individuals in recovery, as well as with the recovery community as a whole.

Each Recovery Connection meeting starts with an informational/educational session. Following that, we'll have time for support and sharing, discussions on options for long term recovery, stress management, family support options, new dangers in addiction, getting back into recovery after a re-occurrence, opportunities for getting involved in recovery support and more. At some meetings, we may have movie screenings, or invite a renowned guest speaker to share his/her experiences with the group.

The meeting is open to all who support recovery, are in recovery, or are affected by addiction. Please join us, whether you'd like to help your recovery, help another recovering person, or simply help us get the message out that Recovery Happens!
